

Listing of Claims

1. - 29. (cancelled)

1 30. (previously presented) An apparatus for inhibiting foot eversion, the
2 apparatus comprising

3 a cuff positionable around a leg immediately above an ankle joint
4 so that the ankle joint prevents the cuff from moving downwardly,

5 a strap with a first end and a second end, the first end connected
6 to the cuff and the second end connectible to footwear at a location on a
7 portion of the footwear at an outer side thereof wherein the cuff is positionable
8 above protruding parts of the ankle thereby preventing the cuff from moving
9 down on the leg below the ankle and wherein the cuff is supported by the
10 protruding parts of the ankle to facilitate inhibition of eversion of the foot.

1 31. (previously presented) The apparatus of claim 30 further comprising

2 adjustability means for adjusting length of the strap between the
3 cuff and the footwear.

1 32. (previously presented) The apparatus of claim 31 wherein the adjustability
2 means is from the group consisting of openable-closable clasp and buckle apparatus.

1 33. (previously presented) The apparatus of claim 31 wherein the cuff includes
2 cushion material for the comfort of a user of the apparatus.
